

## *Intelligent Safety Master*

**GREENPOWER**<sup>®</sup>

*Zero Emission Technology*

Green Power (Zero Emission Technology) Microprocessor based Intelligent Safety Master offers reliable, convenient and cost-effective power distribution with enhanced power safety features for home and office appliances, medical equipment, computers, lighting and other precision electrical equipment. Includes Digital display with Multi outlet, Standard AC power cord. Features ABS plastic case to stand up to the most demanding environments, Surge and Spike Protection, Automatic Cut Off system to prevent High/Low Voltage and Over Load.

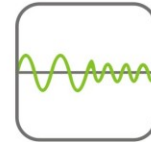

**Intelligent Safety Master**

Model	ISM-10A	ISM-13A	ISM-15A	ISM-30A
Voltage Rating	220V	220V	220V	220V
Current Rating	10Amp	13Amp	15Amp	30Amp

TECHNICAL SPECIFICATION	
Input	220V
Output	220V
Frequency	50Hz - 60Hz
User Interface	Digital Display
Technology	Microprocessor based
Over/Under Voltage Response Time	1 sec
Reflex Voltage	5V ~10V
Surge Protection Response Time	10 ns
Wave Form	Sine Wave
Ambient Temperature	0°C ~ +40°C
Relative Humidity	≤95%
Protection	Surge, Over/Under Voltage, Over Load
Customization	Over/Under Voltage, Over Load
Output Sockets	Multi type sockets
Safety Marking	CE, RoHS

**Spikes Surges**

**Low Voltage**

**HighVoltage**

**Basic Lightning**

**RFI / Noise**

**Power-Back Surges**
